Inclusion in California Early Learning and Care

About the Study

All of California's families deserve high-quality early learning and care options for their children. For the families of children with disabilities, this need is even more pressing. Despite efforts to include children with disabilities in subsidized early learning and care, less than 2% of children under the age of 5 who are in subsidized early learning and care in California have a disability.

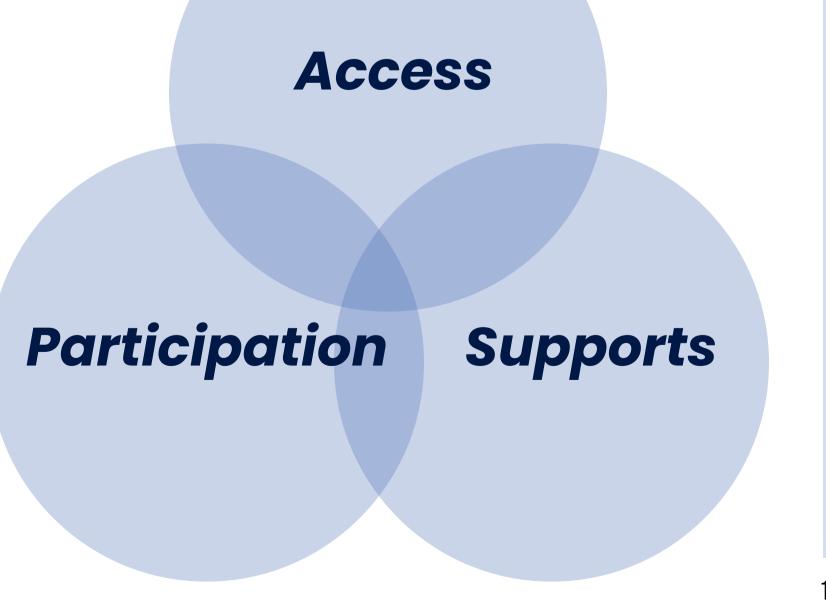

SRI Education and the California Department of

Three Critical Components

Inclusion of children with disabilities in early learning and care has three critical components¹:

- Access to a wide range of early learning and care settings and to the learning opportunities in those settings
- Full participation of

Education (CDE) have been awarded a grant from the Administration for Children and Families (ACF) to learn about how we can improve the inclusion of children with disabilities in subsidized early learning and care in our state.

children with disabilities with their peers in learning activities

 Availability of supports that children and organizations need to enable the inclusion of all children

Study Activities

ANALYZE DATA

Analyze early learning and care data collected by the state.

INTERVIEW KEY INFORMANTS

Interview key informants to learn about the inclusion of children with disabilities in early learning and care.

CONDUCT CASE STUDIES

0

Conduct case studies with 60 families across six communities. Case studies will include interviews, observations, and reviews of the children's Individualized Education Program (IEP).

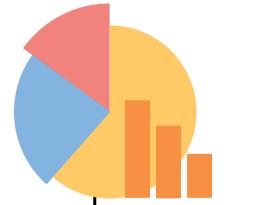

SURVEY STAFF & ADMINISTRATORS

Conduct statewide surveys of early learning and care staff and preschool special education administrators.

Key Activities

YEAR 1

YEAR 2

YEAR 3

- Analyze current state data
- Share information with stakeholders
- Begin key informant interviews
- Share information and Year 1 results with stakeholders
- Analyze state data for Year 2
- Conduct key informant
- interviews
- Identify case study sites and conduct interviews on impacts of COVID-19 on inclusion
- Begin case studies

- Share information and Year 2 results with stakeholders
- Analyze state data for Year 3
- Conduct case studies
- Share information and Year 3 results with stakeholders

YEAR 4

- Analyze state data for Year 4
- Conduct statewide surveys
